NEXION'S ESSENCE

We're relentlessly focused on reaching outstanding goals in the field of sintered marble slabs and to stay on our **commitment to excellence in manufacturing high quality slabs and large size tiles.**

To us, excellence comes from passion and experience. **Passion and experience in mastering creativity, design, technology and process management.**

We always aim to the highest standards but we also allow for evolution and new valuable ideas. Italian creativity is in our soul: Nexion products are defined by quality, high standard and design. Materials blossom under the genius mind of Italian R&D and designer's team.

Never content to settle for the status quo, we also focus on a consulting approach cater to find new advanced solutions to our demanding clients.

Nature is an endless source of inspiration just as man-made materials are canvas for new perspectives. Both of these dimensions are stunning, textural, colorful and versatile mediums for designing and creating unique sintered solutions.

“We always aim to the highest standards but we also allow for evolution and new valuable ideas.”

Nexion is a brand of Nexion Surfaces , a multinational ceramic company born from the meeting of two large family groups that have always been leaders in their reference markets: Ceramiche Speranza, the Italian firm founded in 1961 that established state-of-the-art manufacturing facilities in India together with the Aghara family, one of the leading players in ceramics and sanitary wares in India since 1977.

COMPANY

All Nexion collections stand out for their superior **physical qualities, chemical characteristics and beautiful aesthetics.**

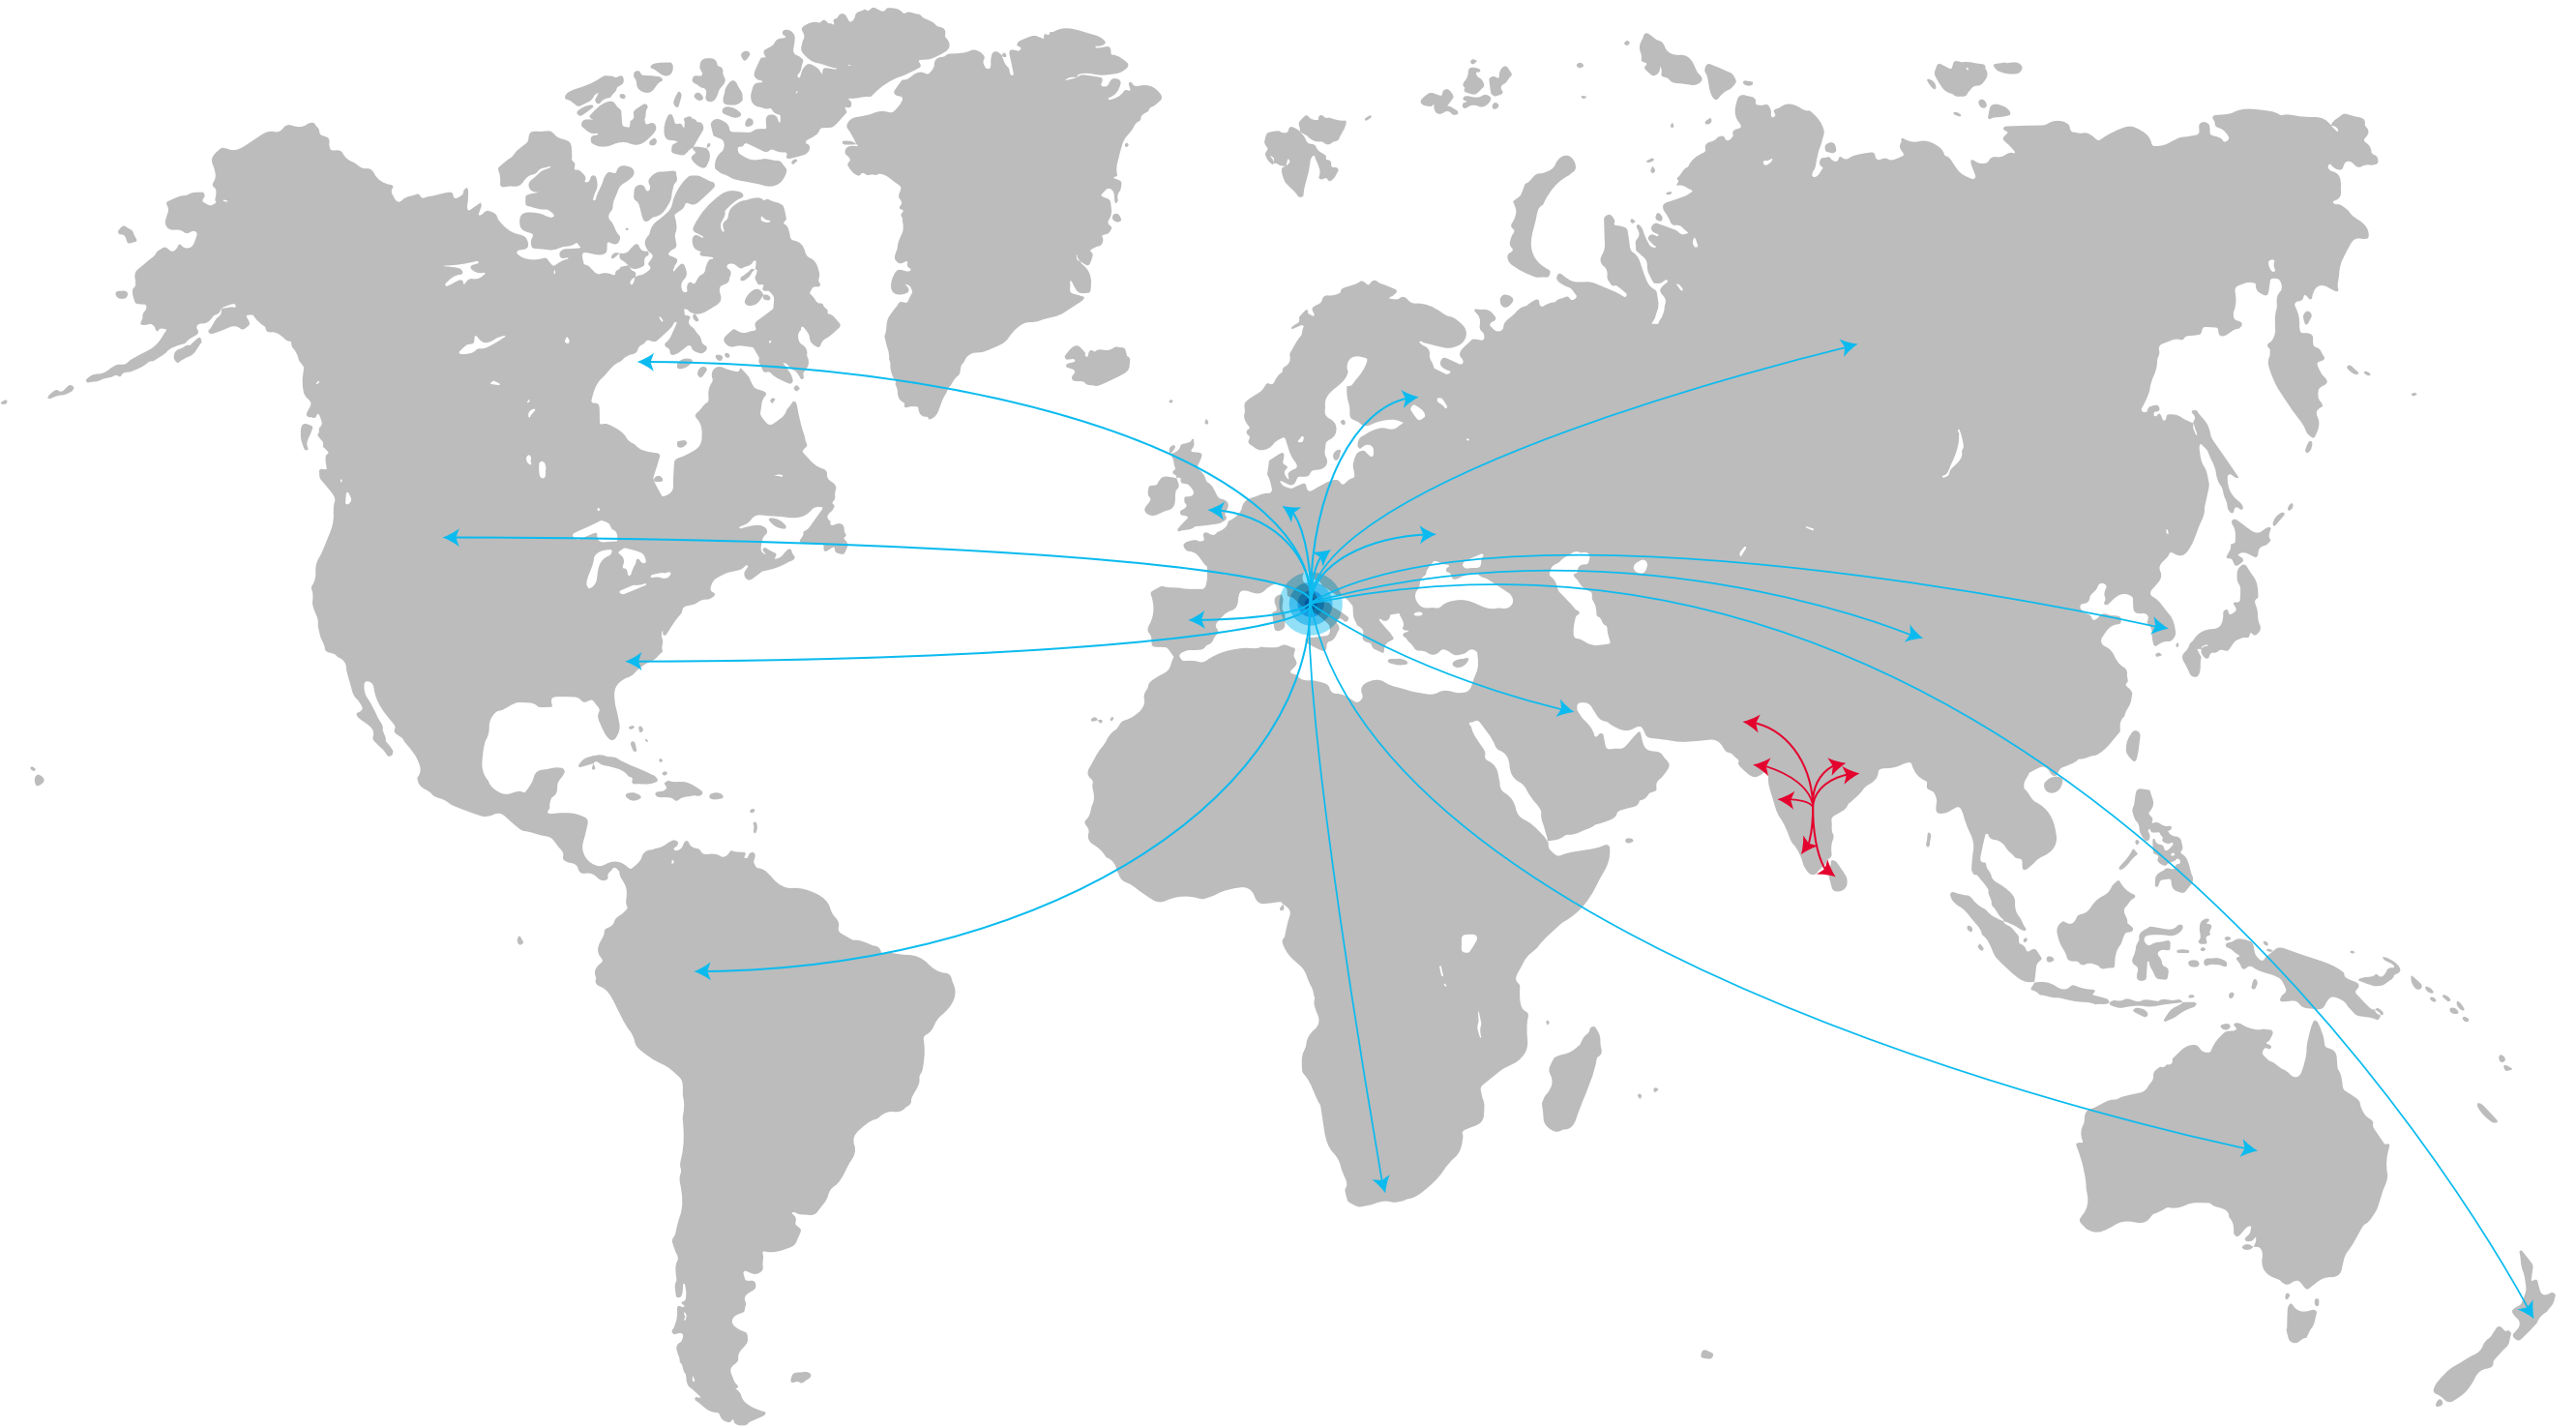

To achieve the highest quality standards Nexion combines over **50 years old tradition with ongoing research, development on materials, state-of-the-art technology, sophisticated manufacturing processes and significant resources to continuous improvement.**

COMMITTMENT TO QUALITY |

Nexion is a global brand that crosses the borders of different countries.

The main strategic value chain activities are based in Italy. Our **top-quality production** is located in India into a fully automated state-of-art facility equipped with the latest Italian machineries. Our sales network focuses on specific high-potential and high-value target markets **all over the world**.

● Design

● Manufacture

REACH

We nurture our strong **multicultural vocation**: Nexion people are a successful and well integrated team with some of **the top talent of the Italian and Indian culture, both rich in history, tradition and values.**

Everyday, over 300 people use their passion, enthusiasm and highly specialized skills to turn the important targets we have set for ourselves into positive results.

“300 people use their passion, enthusiasm and highly specialized skills to turn the important targets we have set for ourselves into positive results.”

The most precious resources are our employees. For this reason, even before the launch of our plant we have given life to an special program of **“Corporate Social Responsibility”** which aims to provide to our employees and their families the best living work-life conditions possible especially in a developing country such as India.

The CSR program covers different areas: **work conditions, welfare, surveillance and medical assistance**; we dedicate great attention to our employees’s worklife balance by providing them high quality amenities and accommodations for their families within our company’s compound.

Our purpose is simple as much as essential in nature: we want to create the best possible working-life conditions allowing our employees to live a dignified and satisfying life both inside and outside the workplace.

We are proud of the standards that we have achieved and we hope that, following our example, more companies will commit to improve the working and living conditions of employees and their families.

Italian Design

Nexion sintered surfaces are the finest expression of **Italian style and imagination: a superior aesthetics** of products designed in Italy by experienced creative.

Italian Quality

Italian design can be accomplished only with **Italian quality of Italian production processes & know-how**. High quality machinery and expertise about the way to apply the potential of technologies allow us to obtain reliable and lasting technical results.

Modularity

Nexion offers the **largest range of products in multiple sizes**, surfaces and technical characteristics to find the right solution for any kind of space.

Innovative Design Surfaces

Up to **8 different surfaces**, with a great aesthetic impact combined with exceptional technical performance fit for any space indoor, outdoor & façade.

3D Textures

The innovative 3D Textures have been awarded with the **prestigious Red Dot Award: Product Design in 2020**, being the only products that applies any 3D pattern on a large slab.

Customer Oriented

Customization and customer-centric make our service as much as possible suitable to satisfy design needs and desires, allowing experimentation with a variety of graphics, surfaces, colors and more.

Thanks to an in-depth study of the finest marbles **we devised many design and surfaces that interpret natural marbles and artificial materials with new high-tech features**, in line with the needs of contemporary architecture.

Our sintered marbles distinguish themselves for their rare beauty, able to give back all the flavor of marbles that have always represented the maximum degree of exclusivity in the construction field, designed and developed for the most refined tastes.

Nexion sintered marble is a modern synthesis between aesthetic richness and technical capabilities, highlighted even more by the multiple variations of surface finishes, striving to obtain the right perceptive effect according to its own design context.

NEXION SINTERED MARBLE

1. SUPERIOR AESTHETICS

We select the best Italian creative minds to find the **finest inspirations to create a new range of refined sintered marbles that perfectly reinterpret natural and artificial materials**, with a stylistic accent that stands out for a sophisticated contemporary taste.

SUPERIOR AESTHETICS

2. INNOVATIONS IN SURFACES

We have always worked on research and development of surfaces, trying to identify ourselves as much as possible with design approaches. This approach is the main road that allows us to create optimal aesthetic with superficial patterns & structures that allow our clients to perceive our product as natural, from a touch & feel perspective to its unparallel beauty.

3. MIRROR LIKE REFLECTION

Sintered Marble blends the design of natural marble with a mirror-like capability to reflect light. This material is an evolution of marble-effect ceramic, a new solution which achieves an almost perfect mirror-like reflection with no distortion or waves in the light reflection of any objects. We are one of the few company in the market to use the precious dry-granula to enhance our product's color nuances, details and wave-free visual impact.

4. SURFACE SPECIALIST

Every space deserves the right surface. **We decided to focus on 8 surface options inspired by marble processing** which can be re-design digitally to create any pattern in any possible look: from cement to stone or wood with no limits in creativity.

Our Marble Surfaces

Nexion has given to marble collections the beauty of sintered surfaces, designed for the most versatile and modular standard on the market. The result is an **advanced mix of graphic qualities and performance advantages that opens a new era for interior design floors and walls**, making Nexion a unique surface-driven brand in the world.

FULL LAPPATO

Full Lappato is the most notable marble surface in interior design. With perfect mirror reflection, obtained by superior glaze quality and master-class polishing, this surface exalts the graphics and the deepness of fine marble slabs.

LAPPATO MATT

Lappato Matt is a contemporary interpretation of marble surface, with its characteristic absence of any reflection. Dedicated to the world of design, architecture and furniture.

NATURALE

Naturale is a surface finish that can be appreciated for its well-defined softness. An advanced reworking of the graphic richness of the marbles, available in different floor.

Lucido Opaco & Spazzolato

LUCIDO OPACO

Lucido Opaco is an iridescence modulations on surfaces devised by Nexion's research and development team, leveraging on its artisan mastery. The company has created the new Glossy-Matt surface, specially designed to emphasize the graphics of precious marbles.

SPAZZOLATO

The **Spazzolato** is distinguished by a feeling of softness, embellished with a delicate hollow and relief engrave graphic typical of real marble. A new visual effect with a tactile consistency also amplified and fully enhanced by its grazing light conditions on surfaces.

Textures: the chiaro-scuro light effects

BOCCIARDATO

RIGATO

PETTINATO

Finally, the **bocciardato** one reproduces the results of a manual bush hammered technique, much appreciated since ancient times, which gives the surfaces a characteristic slightly corrugated appearance, very similar to that of the natural material.

Examining them all in details, the **rigato** one is characterized by very close parallel lines, running along the surfaces, giving them a very suggestive tactile and visual appeal.

The **pettinato** texture reproduces a craftsmanship technique that gives a particular 3D effect to the surfaces, through the use of rigid bristle tools in the phases preceding the solidification of the material.

A modern bathroom featuring a white freestanding bathtub, a dark marble wall, and a large window with a view of a garden. The bathtub is positioned in the center of the room, with a white towel draped over its side. On the edge of the tub, there is a dark wooden tray holding a bottle of soap and a small plant. The wall behind the tub is a light beige color with horizontal lines. The floor is a light beige color. The window is framed in black and provides a view of a lush green garden with a white fence. The overall atmosphere is clean, bright, and serene.

A wall of Rosso Levanto marble, characterized by its deep red base color and intricate, white, vein-like patterns. A grid of nine white, rectangular floating shelves is mounted on the wall, arranged in three rows and three columns. The shelves are illuminated from below, creating a warm, ambient glow. In the foreground, a modern desk with a black top and gold-colored metal legs is visible, along with the back of a light-colored leather chair.

TECHNICAL INFO

TECHNICAL INFO

Driven by a sense of partnership with those who have decided to promote and sell Nexion branded products, we are also committed to help dealers and sales representatives to be successful in their business.

This catalogue has been designed to help professional sales representatives to convey the best possible understanding of the unique characteristics of Nexion's collections to the benefit of the advice they give to households, architects and developers and for the best performance of their business.

Nexion installation suggestions

Nexion recommends 2 mm joint for optimal aesthetics taking advantage of the tiles caliber in multi-sized applications.

Both cement and epoxy grout can be used; grout-design color matching advisable for optimal aesthetics.

It is not recommended to use grouting with colored pigments in contrast with the color of the tiles.

Packaging & shipping

Packaging is a fundamental element of customer service, being aimed at allowing maximum use of space/weight available and to minimize the risk of breakages, even on bumpy roads.

Nexion's packaging standards are based on carefully designed box and pallet packaging for the optimal load of trucks and containers.

That is very important when large tiles format are to be delivered and Nexion Logistics Department has devised a number of packaging system depending on product sizes and means of transport, including Euro-size pallets and metal A-frames.

Though shipping usually takes place under the customer's responsibility, Nexion is fully committed to help clients to manage this activity in the best possible way.

Nexion's Customer Service Department works with clients and logistic companies to arrange for shipments and to guarantee that loading and unloading procedures are properly carried out, in particular at destination.
