dealers' segments.

ROCKDECK[®]
OUTDOOR FLOORS & FACADES

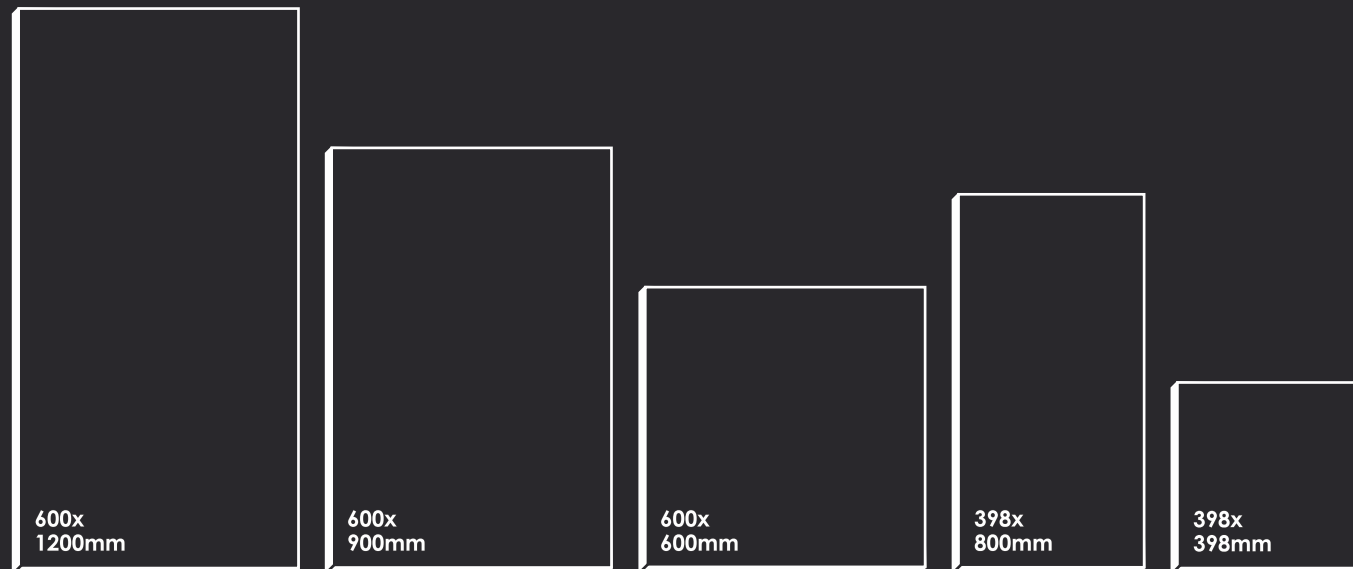

**URBAN
DEPICTION
OF
NATURE**

Earth, Water, Fire and Air have been combined to bring your emotions to life that creates the fifth element of nature, Space. Feel the energy that each of these elements can convey with the high-performance outdoor tile designs that are inspired by Natural Stones, Concrete, Wood and Metal.

Multiple sizes, variety of designs the amazing 'R-11 and the Anti-Skid Surface' put this 20mm category high on versatility. Without compromising the contemporary style, 'ROCKDECK' is capable of blending seamlessly into the context.

ROCKDECK COLLECTION

AVAILABLE SIZES

AVAILABLE THICKNESS

The tiles of the Rockdeck collection are available in multiple sizes making it feasible to install them in small as well as large spaces to create an appropriate ambience. These tiles are also available in different thicknesses to choose from making this collection suitable for all kinds of applications from floors and walls to pathways and furniture.

APPLICATION AREAS

FLOOR

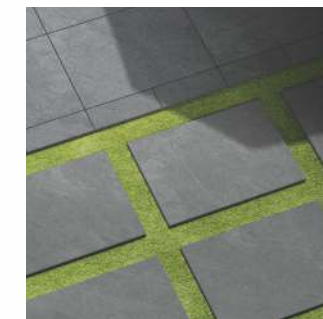

FACADE & WALL

OUTDOOR & SIT OUT AREA

SWIMMING POOL BORDER

PATHWAYS

STEPS AND FURNITURE

By beautifying the outdoors, one adds to the aura of a space. This collection comes in various sizes which makes it highly suitable for all kinds of big and small spaces. Along with being a perfect fit, this collection will also uplift the ambience of your space.

R-11 THE ANTI-SKID SURFACE

R-11, the Anti-skid surface is the result of increasing demand of porcelain tile for the high-performance environment due to its popularity in various uses and applications. Main candidates for R-11 surface are wet areas that are exposed to moisture and water, outdoor floorings, frequently used floors and high-traffic areas. This finish has an amazing ability to roughen the tile surface without changing its design; so that you can have a cohesive visual feel of the same design having multiple finishes throughout the spaces.

INSTALLATION SYSTEMS

Outdoor floors can be laid in many ways to give a space a stylized look. It can be dry laid on the grass by leaving a little space between all tiles with grass peeking from it. Another outdoor space where you can lay tiles is on the gravel by leveling the space and laying tiles and applying some pressure with a rubber hammer to fix it in place.

Outdoor tiles can also be laid on raised flooring to allow proper drainage, insulation or to conceal cables and pipes, giving a space a neat and pristine look. The tiles can be fixed using adjustable support. Then, there is always the classic method of laying tiles on screed with adhesive for great durability. This method is mainly used in areas like garages and car parks of residential as well as commercial spaces. This laying technique creates uniformity between tiles and the road.

DRY LAYING ON GRASS

It is as easy as it seems. Carve about 2 inches of soil and pour some gravel to make a proper bed. Then lay your Rockdeck tiles on top of it.

LAYING ON GRAVEL

Make sure your ground is compact and leveled. Install them as desired giving a generous joint between Rockdeck tiles.

OUTDOOR LAYING ON RAISED FLOORING

Our Rockdeck tiles can be easily installed on raised floor systems to provide drainage of rain water. Just ensure that the area to be installed is leveled, compact and can support the weight.

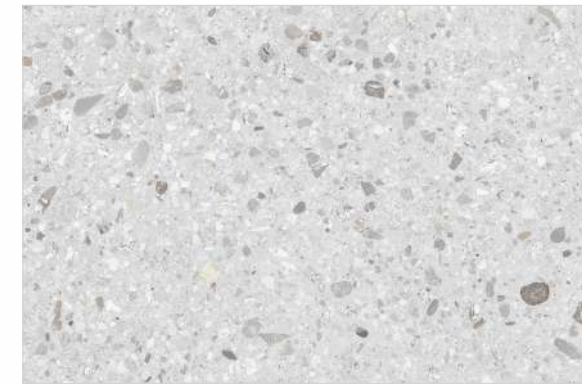

LAYING ON SCREED WITH ADHESIVE

Install Rockdeck tiles on screed with adhesive to create an even surface. Make sure you keep space between two tiles.

DESERT SERIES

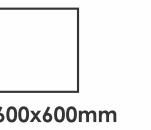

Inspired by the rough and abrasive terrains that deserts are known for, this collection lets your ambiance embrace the appropriate rustic charm of freedom and adventure. The coarseness of these geographies has inspired us to make our tiles strong and sturdy, while the design's uncanny soothing effect is bound to grab the onlookers' attention!
