HIGH SHADE AND TEXTURE VARIATION WITHIN EACH CARTON

"Please note that there may be variations in the colours due to the random design concept, which is part of the unique beauty of this concept. We advise you to view the actual tiles before making a final decision on colours. It is important to keep a gap of 2 mm between tiles during installation.

As a precautionary measure, we recommend conducting a dry mock installation of the tiles to ensure seamless final installation.

Keep in mind that size and shade variations are inherent properties of all vitrified tiles and should not be considered as a manufacturing defect.

Claims made post-installation will not be addressed.

Contents of this catalogue is indicative and not exhaustive with regard to graphics, decors and colours shown. The product sizes indicated are nominal and the colours may vary due to the nature of the Vitrification process. These features are subject to change at any time without notice and are not legally binding.

"We are honoured to be a part of your home and are committed to providing you with a lifetime of joy and happiness."
