Introducing

LAGUNA

Designed by a world renowned design studio
Matteo Thun
MATTEO THUN & ANTONIO RODRIGUEZ
MILANO | SHANGHAI

The moods of Laguna

A selection of bathroom colour palette suggestions based on products from the Laguna collection.

URBAN OASIS

Urban Oasis is all about high-end simplicity, elegance and sophistication.

COLOUR CHARISMA

Colour Charisma brings a fresh breeze of Mediterranean flair to the bathroom.

LUXURY ALLURE

Luxury Allure brings together fine textures, and the tactile pleasures of quality materials.

WOOD HAVEN

Wood Haven creates harmony through subtle, natural material combinations.

Simplicity

A wide range that blends a minimal design
with direct functionality

Durability

Ensures aesthetic durability and offers
long product lifespan

Neutrality

A collection that makes a neutral,
timeless, style statement

Modularity

Range that offers single and dual tone colour options

CONTINENTAL PRIME

inspired by the timeless pillars

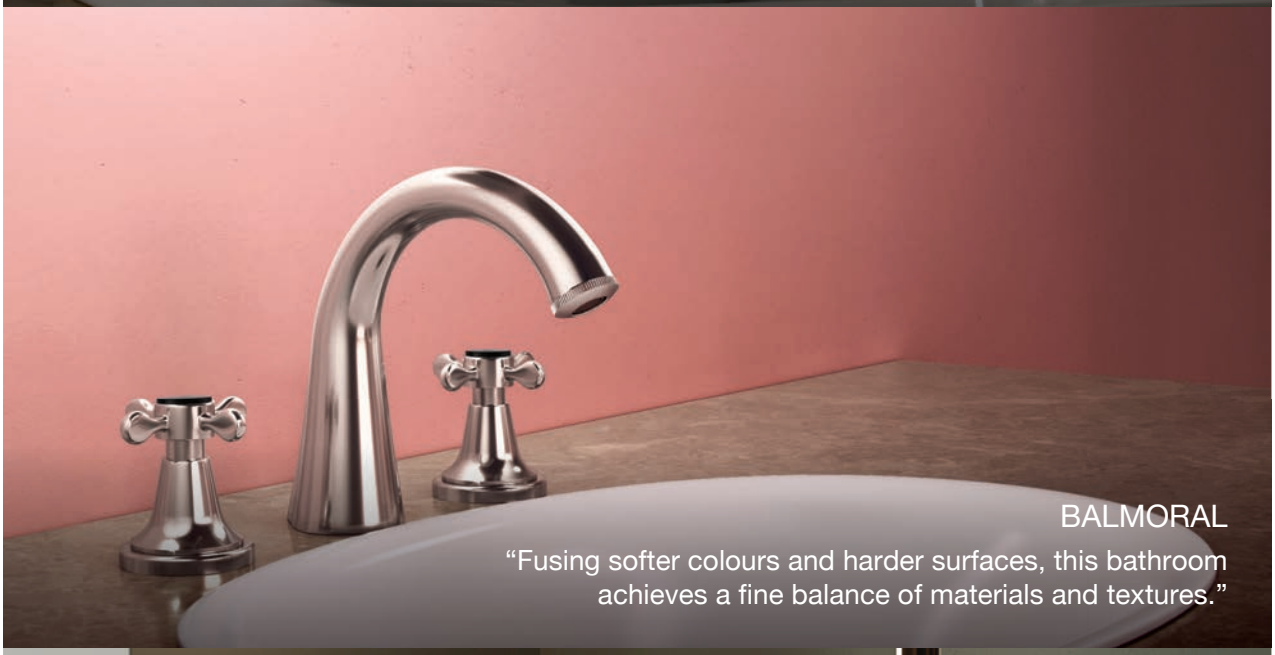
Queen's Prime

Regal Elegance For a New Era

Designed to evoke the regal elegance of the Victorian era, the original form of the Queen's range has now been updated for the modern era with graceful lines and a sleek, slender, updated silhouette.

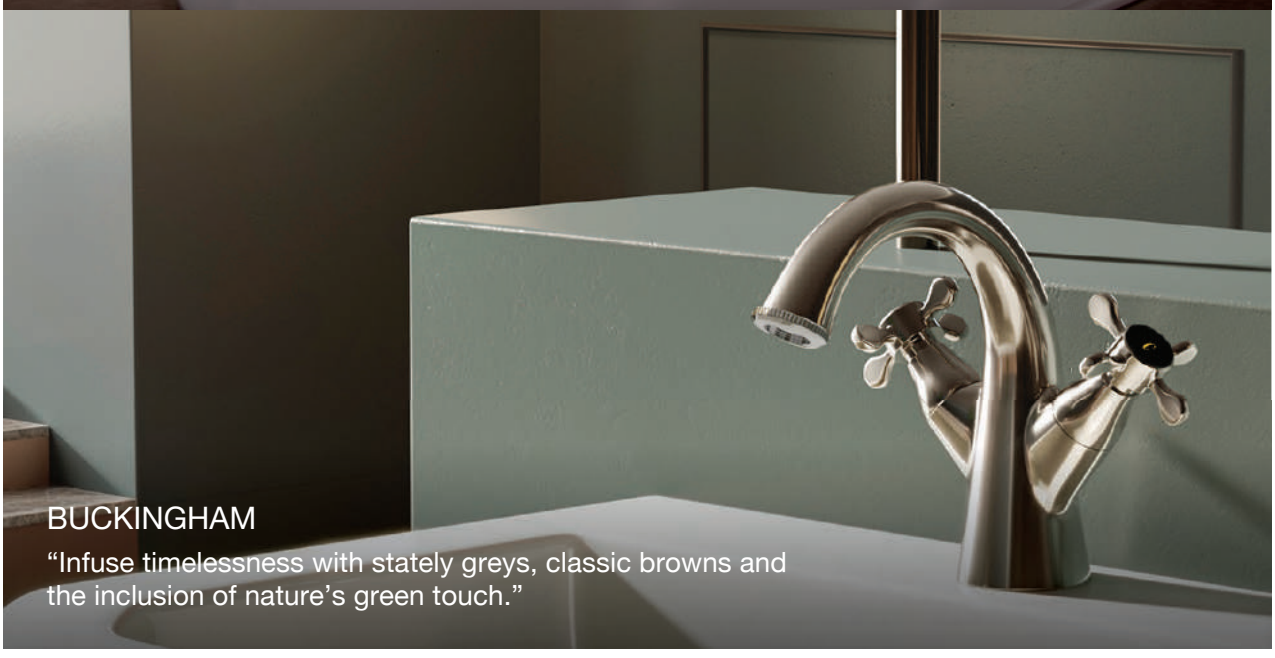
HAMPTON

“Bridge the past and the present with a lighter palette of wood and pastels, along with crafted embellishments.”



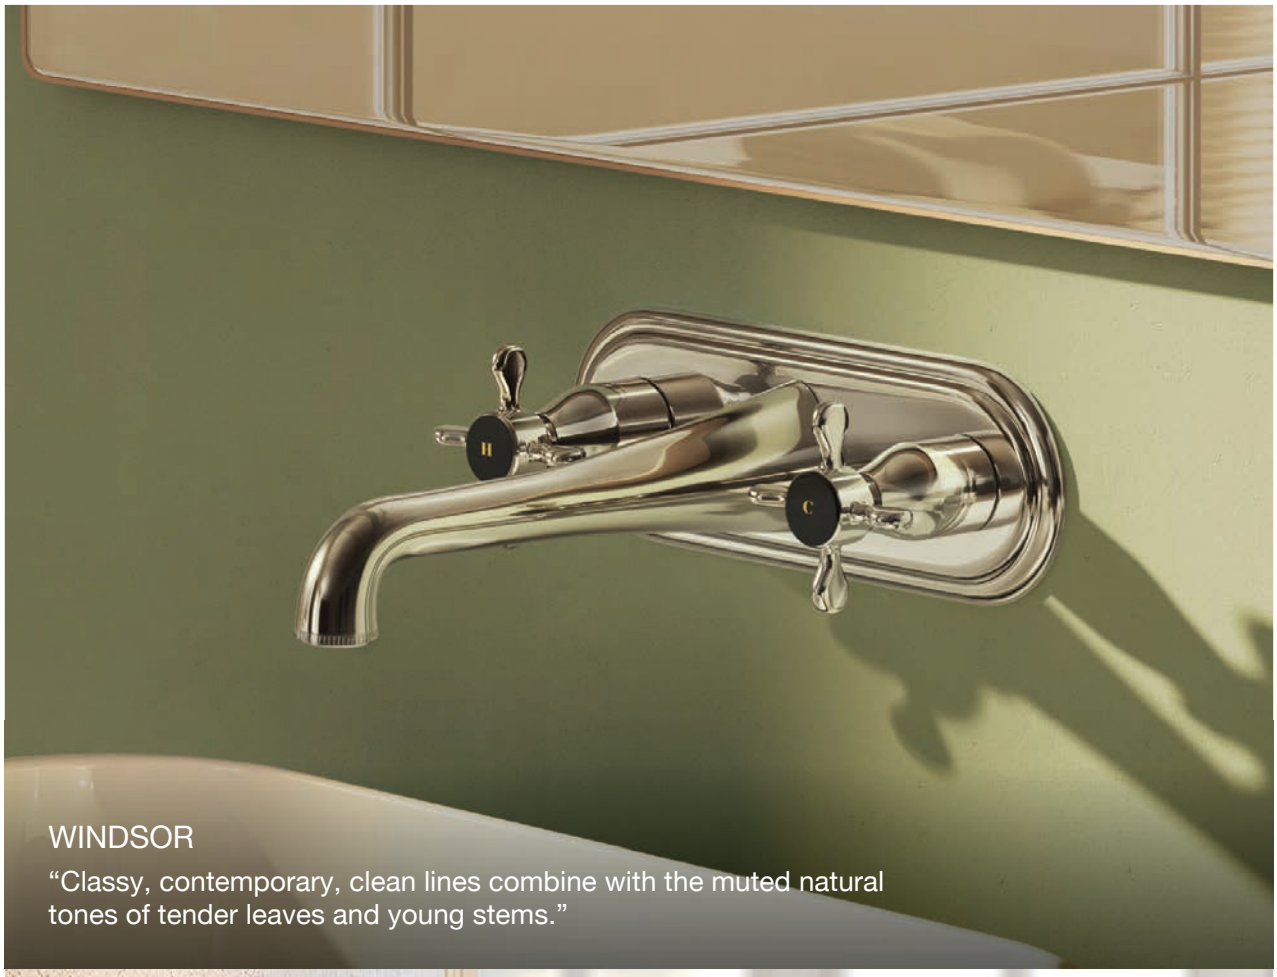
BALMORAL

“Fusing softer colours and harder surfaces, this bathroom achieves a fine balance of materials and textures.”



BUCKINGHAM

“Infuse timelessness with stately greys, classic browns and the inclusion of nature’s green touch.”



WINDSOR

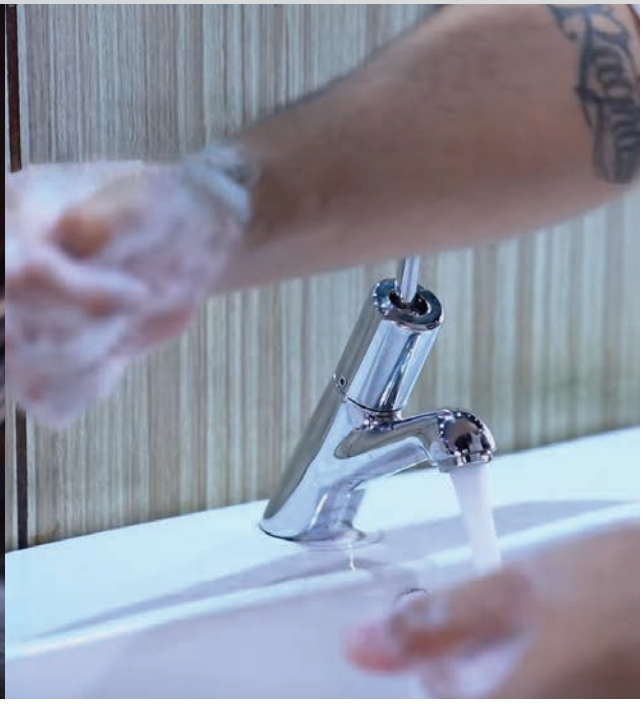
"Classy, contemporary, clean lines combine with the muted natural tones of tender leaves and young stems."

OSBORNE

"The purity of white and geometric patterns come together to complement the femininity of Queen's Prime."

New Age Pressmatic

Elbow and Foot-operated faucets that are easy to retrofit to your existing Jaquar faucets



Intelligent Sensor Faucets

Jaquar's new Kubix Prime and Opal Prime touch-free, water -saving sensor-activated faucets. Upgrade your Jaquar bathrooms for today's safety needs, with aesthetics that match perfectly.

Si

Sensory Intelligence

- COORDINATED AESTHETICS
- TOUCH-FREE FOR SAFETY
- WATER SAVINGS
- EASY TO INSTALL AND SET UP

Sylish Matt-Finish Sanitaryware

Enhance the serene atmosphere of your bathroom with our new shine-free sanitaryware, equipped with an anti-germ-glaze on a rimless bowl and a soft-close seat. Available in quiet black and calm white colours.

Intelligence

BLUSH
SENSOR FAUCETS

Smart by Design

The new Blush range of faucets by Jaquar cleverly integrates a new generation, high-accuracy, quick-response sensor right into the spout. Eliminating the need for a black inset window for the sensor, and providing a clean, minimalist, cutting-edge aesthetic to your bathroom.

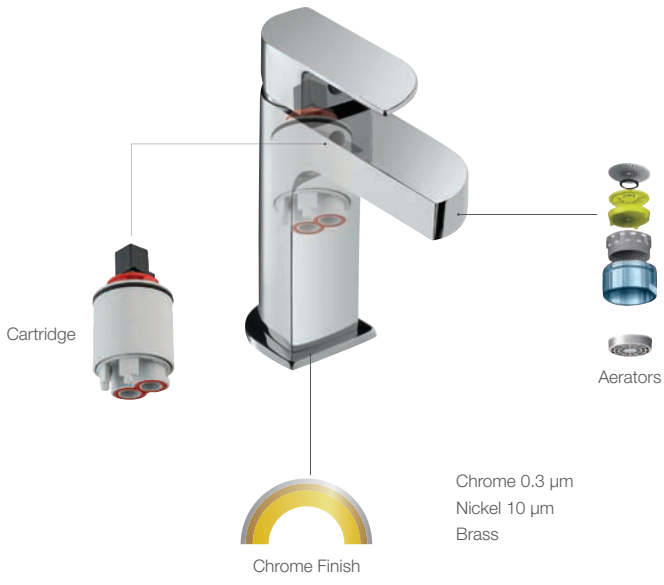
Jaquar

Jaquar faucets provide a great experience with their high quality performance. Jaquar's in-house, award winning design team is well integrated in its approach and helps to produce over 1,25,000 faucets per day. Our state-of-the-art manufacturing units are backed by a world-class testing lab. That's why Jaquar faucets conform to the highest quality and regulatory standards. Jaquar's passion for perfection reflects in the 10 years of warranty it extends on its faucets. The faucets comprise of 29 ranges to suit various design needs, besides a complete range of faucets with single-lever, quarter turn and multi-turn operation.



Soft Water Flow

Advanced Water
Saving Flow Regulator

Aerators

- Devices that mix air with water to give a soft and splash-free flow.
- Our integrated honeycomb-structured aerator, provides lime build-up protection
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles

---

Higher Longevity

Operates Smoothly

Optimum Flow
and Temperature

Cartridges

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Jaquar cartridges are half a million cycle tested to give a longer and trouble free operating life of up to 20 years (considering 60-70 operations per day)
- Wide angle of lever provides extra comfort and flawless, smooth operation
- Our cartridge spindle is made of brass instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5-5 bar)
- Recognised and approved by national bodies NSF-USA, ASME-USA, WRAS-UK, ACS-FRANCE

Higher Durability
(0.3µ Chrome + 10µ Nickel)

Chrome Finish

- Upper shiny protection layer provides a mirror finish to every faucet.
- High plating thickness (Nickel: 10 microns and Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer time.

---

*Unmatched
Warranty

Jaquar's range of products are so precision-engineered and made to such exacting quality standards that they come with a 10 Year Warranty. Offering customers complete peace of mind.

*T&C Apply

Jaquar Care

Armed with a large service network of trained personnel who offer on-site plumbing guidelines and preventive maintenance services besides regular check-ups, Jaquar ensures uninterrupted bathing pleasure.

If you wish to place orders for the different colour finishes of this range shown above, just replace the colour code in the middle of the product code with the colour code of your choice. For instance, in the product code FLV-CHR-1075NK, 'CHR' connotes Chrome Finish. If you wish to order the same product in Gold Dust finish, replace 'CHR' with 'GDS'. Thus the product code will be FLV-GDS-1075NK.

The finishes depicted here are only indicative and may differ from that on the actual product.

i-Flush

Installed directly in the pipeline, the i Flush concealed flushing mechanism has multiple aesthetic and design advantages. It also provides a more appropriate mechanism of flushing, using the available water pressure to create better siphoning at the trap and superior clearing of waste.

i-Flush advantages

- Can be installed in 4" Brick Wall, no need to construct a separate ledge wall
- It gets directly installed in 32 mm (1-1/4 inch) pipeline from overhead tank
- Repeated flushing is possible whereas concealed cisterns will definitely take time to fill up after flushing once
- i-flush 32mm can work efficiently at even low pressure (minimum 0.8 bar dynamics)
- Less noise in flushing
- Dual flush-Saves water, a green product
- Easy maintenance, control stop valve can be closed with the help of a T-type key provided along with product
- Access to control cartridge by removing front actuation plate hence easy accessibility for maintenance

in-built control system | saves water | twin flowsystem | less noise | slim wall plate | go green | cost effective

Showers

Jaquar showers are designed to deliver a range of experiences, and let you have a shower of your choice every time. Our overhead, hand and body showers complement a wide range of shower systems, catering to your unique showering habits, design and installation requirements.

Our advanced showers are designed to deliver great precision and consistent water distribution to each individual nozzle. Jaquar showers give you a choice of upto 5 different flows matching your mood. Whichever flow you choose, you will be assured of an ultimate experience every time.

Cascade

Mist

Features

Advanced Rubit Technology

A feature that keeps showers clean and increases their longevity. Since the spray jets on the showers are made from elastic silicone, they ensure that no limescale deposits stick to the shower face. Even if they do, they can be easily rubbed off by hand or flannel.

Click Position System

All Jaquar multi-function showers feature the convenient click mechanism. You can feel and hear the click while changing the function of the shower sprays.

Thermo Insulation

Jaquar's insulated shower systems prevent scalding by not heating up the shower body.

Jaquar Booster Technology

Jaquar Booster Technology creates the sensation of a full shower regardless of the water pressure.

Hydrolite Showers

>42°C

32-42°C

<32°C

A light emitting shower which transforms the stream of water into a beautiful waterfall of light.

- **Hydro Power:** Powerful electric energy for LED, which is generated by waterpower. Does not require any battery or electrical power supply.
- **LED:** The sensitive shower light changes its colour with change in temperature.
- Water glows Red when temperature is above 42ºC
- Water glows Purple when temperature is between 32-42ºC
- Water glows Blue when temperature is less than 32ºC
- **Rain:** Immersing your body in a heavenly rain, experience nature's downpour.

Thermostatic Mixers

Designed to evoke the regal elegance of the Victorian era, the original form of the Queen's range has now been updated for the modern era with graceful lines and a sleek, slender, updated silhouette.

Hi-Flow Thermostats

An unmatched showering experience even at low water pressure!

Jaquar's innovative new Aquamax series offers an unbeatable combination of convenience, efficiency, safety and style. Aquamax thermostatic mixers give the choice to select any design. Be it Kubix Prime, Opal Prime, Ornamix Prime, Vignette Prime, Alive, Aria or Florentine – to match your bathroom design and any outlet type-be it one, two or three outlets, to suit your requirement.

Aquamax

HIGH-FLOW THERMOSTATIC SHOWER MIXERS

Max Performance
Works efficiently even at low pressure
No need for pressure pump

More Flexibility
Universal design, concealed body in
1, 2 & 3 outlet options
8 ranges and 9 colours to select from

Anti- scalding technology
Child lock for extra safety

Why Jaquar Water Heaters

Water heaters that give you more.

To ensure that they are worthy of the trust that is placed by customers in every Jaquar product, a whole range of safety, longevity and energy efficient features have been built in to these water heaters:

1) MORE SAFETY

- Double Safety Thermostat – dual overheating control mechanism cuts off power automatically even if primary cut off fails
- Multi-function Safety Valve – discharges water and acts as a non-return valve if pressure or temperature exceed preset limits

Multi Function Safety Valve

Double Safety Thermostat

Earth Leakage Circuit Breaker

2) MORE LIFE

- Superior Quality Glass-lined Inner Tank – prevents rust, corrosion and prolongs the life of the inner tank
- Single/Dual Glass-coated Incoloy Heating Elements – made of high quality steel for quicker heating and to prevent scale formation

High Quality Glass Lined Heating Element

3) MORE SAVINGS

- High Density Insulation – CFC-free PUF insulation, with added thickness to minimise heat loss and maximise energy savings
- Cathodic Protection – a sacrificial Magnesium Anode protects and saves the tank from electrochemical reactions during water heating

Energy Saving High Density PUF Insulation

Cathodic Protection

4) ATTRACTIVE DIGITAL FEATURES

- Cordless Remote: Wireless remote control for operational ease
- Full Digital Display
- On/Off Timer
- Clock Temperature Setting

Cordless Remote

Digital Controls and Display

*Available in Alexa Plus 20L, Alexa 30L, Insta Prime, Versa Digital 40L-100L & Heat Pump 200L - 500L

5) TRUST OF JAQUAR

- Quality sets Jaquar apart. The high standards of our products have cemented our reputation as the most valued premium brand in the bathing industry

6) UNMATCHED CUSTOMER SERVICE

- Jaquar Water Heaters come with a warranty along with service back-up. Jaquar also offers a Bathroom maintenance service for hassle-free bathrooms

Sanitaryware

Jaquar sanitaryware provides you with a wide range of designs and features to enhance your bathroom décor perfectly. Our wide range of wash basins, offering Wall Hung, Over Counter, Under Counter and Counter-top installation are well coordinated with Jaquar's exquisite range of faucets. What's more, our water closets with single piece, coupled and wall mounted options, fit into your coordinated design and installation parameters perfectly. Their user-friendly, as well as two push-button activated dual-flush technology provides you the choice of using 3 ltr or 6 ltr flush options.

Features

Anti-Germ Glazing

Anti-Bacterial Glaze is an additional Fluoro-Polymer in glaze. It is applied on Jaquar WCs and Wash Basins through a special process and provides the following benefits:

- It forms a strong hydrophobic shield which prevents the build-up of bacteria and germs
- Ideal for India's humid weather conditions
- Renders the surface durable and highly repellent to dirt, oils and liquids
- Facilitates easy removal of hard water deposits

Easy Installation

- Flatness of parts getting fixed to the wall
- No gaps between the wall, floor and the fitting portions of the sanitaryware
- Perfect fitting for a perfect look
- Enlongated rag bolts holes are elliptical in shape, hence it is easy to install

Clean and Odour-free WCs

The interior portion of the traps of water closets are glazed

- Ensures the trap does not collect dirt or give out odour
- Prevents dirt from sticking inside the trap
- Facilitates easy flushing and waste removal
- Ensures clean and odour-free bathroom

Soft Closing Detachable UF Seat Cover

Load bearing capacity of over 150 kg (seat cover and bushes) • Shape and texture of the seats unaffected by temperature variations • Does not absorb room temperature therefore the seats are neither too hot nor too cold to touch • Surface is resistant to stains and strong dyes • Does not deform or peel-off with use • Special buffer oil is used in the hinges for lasting functionality • Soft-close action to eliminate noise of falling of the cover • This is guaranteed for 5 years • Adjustable speed of falling of the cover within a range of 1 to 15 seconds that leads to silent operations

Stringent quality parameters

Load Bearing Test 400 kgs for WC & 100 kgs for WB • Autoclave Test for Craze Resistance • Chemical Resistance Test to negate the possibility of stains • Spectro Photometer Test for colour stability • Flushing Tests: (a) 100 Ball Test (b) Ink Test

After Sales Service

Large service network for complete peace of mind. Jaquar also offers preventive maintenance services for hassle free bathrooms.

Uniform Standard

Uniform grades of product available for retail and projects. No differentiation in terms of product quality, design and colour.

Rimless WC

Innovative, hygienic design that makes flushing efficient and cleaning effortless.

10 Years Warranty

Blind Installation

Design that adds to the aesthetics of the WC. No side windows for installation. More Hygienic and clean.

Tornado Flushing

Silent Flushing. Cleans entire toilet rim and bowl more effectively, reduce water consumption.

Flushing Systems

- Cisterns 441
- Flush Plates 444

Flushing Systems

In order to bring you the latest and the most advanced bath products, Jaquar, a complete bathroom solutions provider presents a design revolution– the superbly designed high quality flush plates. Besides modern designs that offer a sleek look to bath spaces and outstanding features like water-saving, easy access maintenance and anti-condensation, Jaquar Concealed Cisterns ensure that your bathrooms look spacious, clean and hygienic at all times.

Advantages

Saves Water: Impressive Dual Flush with a provision of 3/6 ltr flush (Can be adjusted to 2/4 ltrs)

Less Noise: Technically advanced, silent flush valve and fast-filling hydraulic float valve minimises the flushing sound during usage

Perfect Pan Cleaning: Heavy and even water discharge during every flush at every water pressure

No Damage from Condensation: Has anti-condensation lining wrapping the tank and supply bend to protect damage from masonry condensation

Easy to install and maintain: Jaquar's floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.

Features

Easy Installation: Easy and hassle free installation as no chiselling of wall is required

Load Bearing Capacity: Wall hung WC can be bolted simply and securely to the frame, which can take a load of up to 400 kg.

Wide Compatibility of WC: Accommodates different types of wall hung WCs as holes are provided at different heights

Perfect Easy Alignment: Fixed inlet and outlet distance (135 mm from centre to centre) means perfect installation of WC, and pre-defined space for cistern results in perfect flushing every time

Adjustable Height: Adjustable legs (0-200 mm) to allow for variation in heights of WC, as required

Whirlpools

Jaquar proudly presents its own range of whirlpools. Created by specialist designers from Europe and made in Jaquar's state-of-the-art manufacturing facilities. Jaquar whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromotherapy, a Jaquar whirlpool gives you all these and more. Easy to use functions flawlessly switch water modes for your benefit.

Why Whirlpools?

Hydromassage
A gentle jet stream massage bath that stimulates from the surface of the skin onwards. The deep tissue massage stimulates blood vessels and nerve endings. and relaxes your body's entire muscular system.

Air Massage
An infinite number of air bubbles provide a caressing sensation on the skin and allow the water's soothing warmth to penetrate deeper into the body's tissue. This sensational feeling, akin to weightlessness, is accompanied by a deep experience of healing warmth.

Chromotherapy
The use of various coloured lights offers additional therapeutic benefits when used in conjunction with the whirlpool's massage. These include:

Green: has harmonious effects on the digestive system.

Yellow: radiates sun-like warmth on the body.

Blue: is calming and soothing and lets you float away in to your dreams.

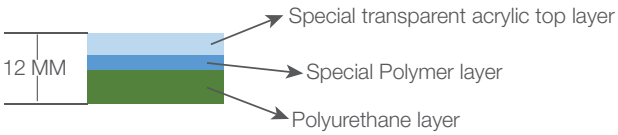
Red: infuses energy and vitality, giving lost strength to the entire system.

Features

The unbeatable product features are:

- Brilliant surface of sanitary acrylic
- Antibac® hygienic surface
- Increased chemical resistance
- High break strength
- Long life
- Excellent design possibilities
- Easyglide® layer
- Low specific weight
- Recyclable
- Repairable

BATHTUB LAYERS



Special transparent acrylic top layer has a high chemical resistance to: cleaning agents, perfumed foams, household detergents, body care products. It prevents surface defects, crazing/cracking, decoloration and color fading

Special polymer for better mechanical resistance to impact and temperature

Polyurethane layer is recyclable and uses ecological material with high insulation that retains the temperature for a longer period than FRP

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation

Fresh water everytime. The water pipes connect via Y-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The electronic keypad control activates all the hydromassage functions, to regulate Airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Water Jets

The effectiveness of the hydromassage is enhanced by the water flow which can be adjusted in intensity and direction to suit personal needs, in order to gently massage delicate areas.

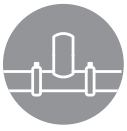
Airpool Jet

The airpool jets provide a gentle and delicate massage on your spine, which increases the sensation of warmth in the body and has benefical effects on the back.

The air bubbles open the insulation layer by oxygenating the body.

PMMA Sheet

Jaquar whirlpools are made of the highest grade of PMMA acrylic sheets.



Air Suction Valve

To enable suction of atmospheric air, and distribute it to each and every water jet to boost the jet pressure.

Freestanding Bathtubs

Bathtubs are for more than just bathing. They can be an oasis of peace and calm. Jaquar's freestanding bathtubs set the mood perfectly for those precious moments of relaxation with their beautiful lines and curves, which invite you to step in and indulge yourself at the end of a long day. For those who have the luxury of space in their bathroom, a chic, freestanding Jaquar bathtub placed away from the walls makes a stunning statement of style and class.

Built-in Bathtubs

The more common and practical choice in bathtubs, the built-in or ‘drop-in’ bathtub is preferred wherever space is at a premium. Because they are placed adjacent to a wall and tucked away, built-in bathtubs are space-economical and can also offer additional storage on the surrounding ledges or the walls next to them. Perfect for placing an aromatic candle or two while you soak in the bubble bath and unwind!

Spas

Spas are a wonderful way to relax and restore equilibrium. Jaquar's spa models are technological marvels whose 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Why Spas?

More economy
An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.

Cleaner, healthier water
Unlike swimming pools, Jaquar spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

A superior experience
Jaquar spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.

Guaranteed to last longer
Every Jaquar spa is hand crafted using industry-leading techniques and materials, which is why we can guarantee the spa shell for 10 years.

Easier to maintain
Jaquar spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Features of Spas

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar spas come with a whole range of energy efficient technologies.

Cabinet Insulation

Jaquar spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Smart meter ready

Using Power Save software, Jaquar spas can be designed to do the filtering and heating when power costs are at their lowest. You can tailor the operation of your Jaquar spa to take advantage of smart meter technology and reduce your running costs.

Micro Filtration

The top priority is to remove waterborne contaminants.

Hydroflow jets

A Jaquar spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience giving different massage action in each seat.

Ergonomic design

Jaquar spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Two lounger seats

To avoid arguments over who gets the spa's lounger (usually the most comfortable and most coveted seat in the spa), most Jaquar spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar spa to enhance your experience. Lighting programs can be controlled using the spa's topside controller.

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Spa Health Indicator

Your Jaquar Spa is also equipped with an early warning ‘Spa Health Indicator’ light. This light comes on to indicate that the product needs service, maintenance or attention to verify any fault that may arise, and to prevent chances of damage escalation.

Saunas

A Sauna is a bathhouse or room, usually made of wood, which uses dry heat to induce perspiration, with steam being produced by pouring water on heated stones. Perspiration or sweating is one of the main ways our bodies get rid of the traces of hundreds of toxins that accumulate inside us from pesticides, drugs and manmade chemicals. 15 minutes in a Jaquar sauna can help us sweat as much as we might otherwise do over an entire day or more. And the benefits of this aid in many medical conditions.

Why Saunas?

Detoxification
Saunas stimulate the body to release fat-soluble toxins, heavy metals, and other toxic chemicals in sweat via pores more effectively than any other form of heat therapy or exercise. Reports have shown that it can relieve the symptoms of drug-induced lupus. The list of chemicals claimed to be removed from the body includes: mercury, lead, copper, cadmium, manganese, sodium, chloride, arsenic, nickel, benzenes, street drugs, prescription drugs, anaesthetics, cholesterol, urea, nicotine, and sulfuric acid.

Immune System Enhancement. A typical sauna session will cause a brief 1 to 3 degree F increase in body temperature. Fever is the body's defence against bacteria, microbes and consequent infection. The production of white blood cells by the bone marrow and killer T cells by the thymus results in boosting immunity, overall.

Stress Relief
Continuous strain on the autonomic nervous system leads to a high level of stress, one of the elusive causes of many chronic diseases.

Pain Relief and Control
It helps in relieving muscular pain, cardivascular & other skin conditions

Skin Cleaning and Rejuvenation
Saunas open clogged pores allowing for removal of dirt, oil, and makeup. In addition, there are improvements in skin problems such as acne, rashes, burns, eczema and psoriasis. Scars, even keloids, may be gradually softened.

Kubix 1750 x 1200 x 2100 mm

- Music centre-radio bluetooth, usb, aux
- Chromotherapy

Steam Solutions

For those seeking wellness in the comfort of their homes, Jaquar steam solutions are a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Why Steam Solutions?

Features:

Quality of Materials
Jaquar hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Advantages:

Stability and Mechanical Resistance
Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation
The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Digital Control
It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting.

Control Units
All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control
It allows you to manage the shower head and vertical jets, as well as activate the steam-bath function.

Benefits:

Clearer skin
Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin.

Infection treatment
A major benefit of regular steam showers is relief from respiratory infections.

Increased circulation
Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function.

Stress relief
One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress.

Shower Panels

Jaquar's Shower Panels make showering much more convenient, since they can offer all the capability of a shower stall, even in a small bathroom. Body shower jets, hand showers, a convenient shelf for your shampoo and shower gel, and of course an overhead rain shower. Easy to install, Jaquar Shower Panels are a great way to increase the functionality of your existing shower area, as they can fit neatly on to the wall via their wall bars.

jaquar

Why Shower Panels?

Jaquar's shower panels make showering much more convenient, since they are almost like shower stalls, and fit even in a small bathroom. Jaquar shower panels are an easy way to increase the functionality of your existing shower area, as they can fit neatly on to the wall via their wall bars.

Maximise bathroom space
Since they are designed to be mounted on the wall, not much floor space is required to accommodate the unit.

Versatility
Instead of using a single shower head, many shower panels are available with multiple water outlets.

Wide Range
Jaquar panels are available in a wide range of prices, styles, colours, sizes and designs to suit different needs.

Easy to Install
Minimum civil work is required to install shower panels. It can be fixed into the existing pipeline

Shower Enclosure

Shower Enclosures have become an integral part of modern bathrooms. Besides serving the functional purpose of separating wet and dry areas they provide elegance and style to the bathroom by taking the aesthetic of the bathroom to the next level.

Shower Enclosures keep bathrooms dry, hygienic and safe. By restricting the water inside the wet area only, shower enclosures keep the rest of the bathroom dry, thus making it bacteria free and hygienic. Shower enclosures reduce the risks of slipping and falling, making the bathroom safe.

Space has become the most precious commodity in cities today and a shower enclosure also helps save space. Modern bathrooms have 3 specific areas in them: the basin area, the water closet area and the shower area. A standard size corner shower area of, say, 1m x 1m or 1.2 m x 1.2 m can comfortably serve all the functional requirements of the bathroom.

With all these functional benefits, shower enclosures have become the need of every bathroom today.

Why Jaquar Shower Enclosures?

1| Jaquar understands bathrooms the best: Our experts are professionals. They understand the requirement of every bathroom in terms of its pipelines concealed inside the wall, the slope of the floor, the height of the overhead shower or shower arm, and the design advantage and limitations of the bathroom as a whole.

2| Complete Solutions from selection to installation: Jaquar offers a complete solution starting from the selection of the right model as per the design and technical need of the bathroom. We also provide technical guidance and ensure perfect installation of the enclosure by Jaquar trained technicians.

3| Ready-to-fit: Jaquar's standard enclosures are flexible enough to be adjustable in terms of alignment of the tiling in the bathroom. Ready-to-fit enclosures save time - just choose it and install it.

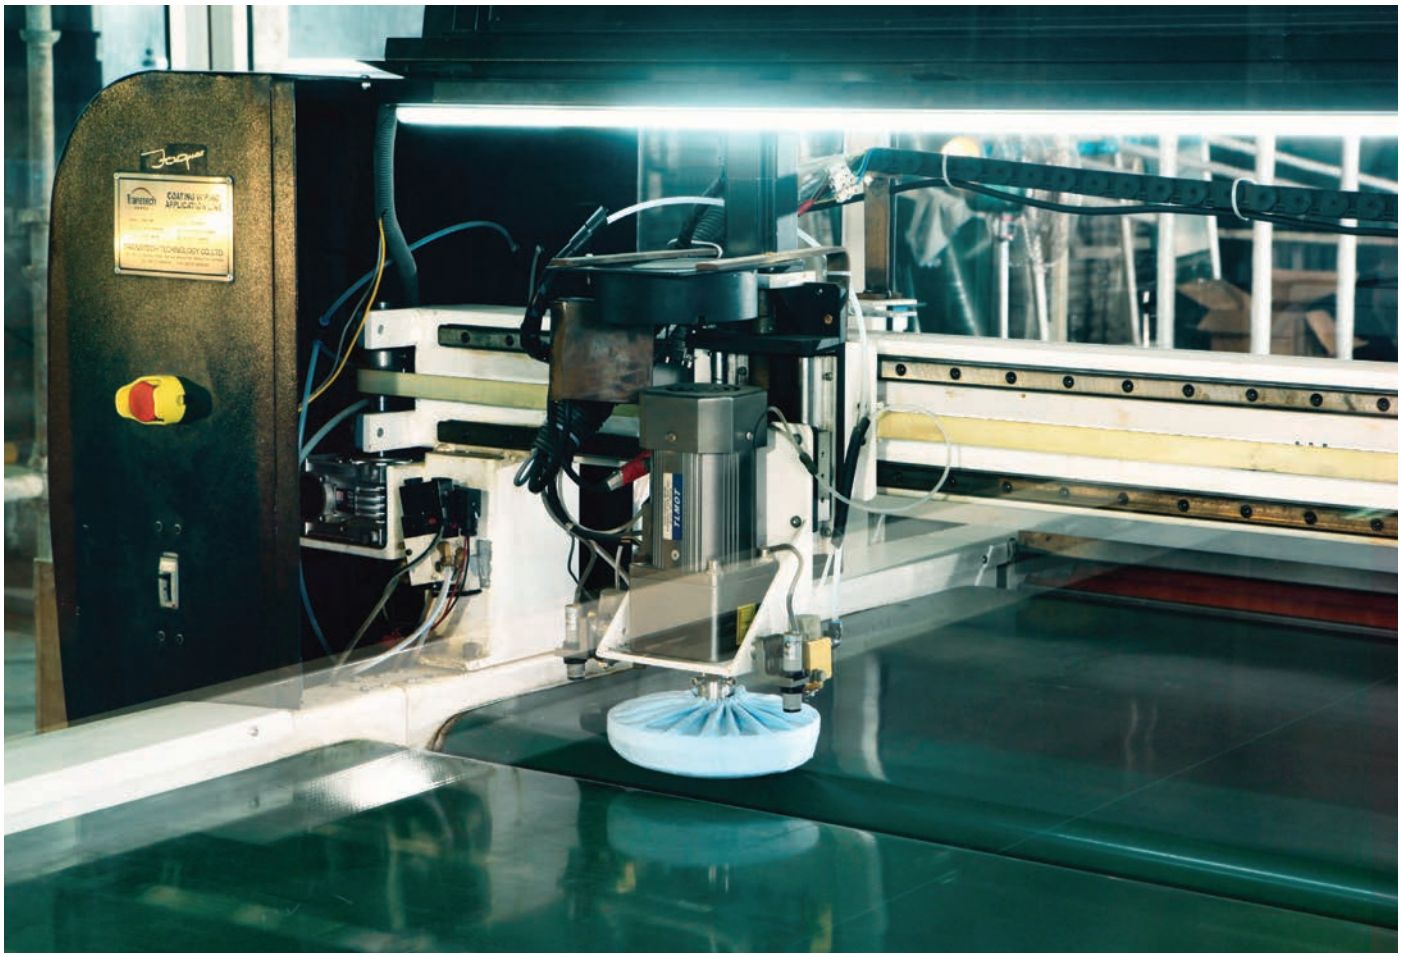
4| A wide range of designs: It comes in a wide range of designs and shapes with the option of clear, frosted, textured, curved, square, rectangular glass etc.

5| A complete set, not the knocked down unit: Jaquar shower enclosures are manufactured in our own plant in Bhiwadi, Rajasthan. All the components like glass, hardware, plastic components etc. come as a complete product from the house of jaquar.

6| Ezee Kleen tempered glass: This feature helps in easy maintenance of the shower enclosure. Since the glasses of Jaquar shower enclosures have special hydrophobic treatment, they repel water, oil and soap, and help to keep the glass clean with 90% less effort than others. It also inhibits bacterial growth and prevents buildup of limescale and water spots.

7| Global standards: Jaquar shower enclosures meet the stringent quality parameters of both European and Indian standards, ensuring consistency and enhancing the life of the product.

8| Unmatched Customer Service: Jaquar Shower Enclosures come with the a 5-year warranty (except on the glass) along with nationwide service back up. Jaquar also offers preventive maintenance services for hassle free bathrooms.



Features:

1| Glass:

Tempered glass: option of 6mm, 8mm and 10mm.

Advantages of tempering/toughening glass:

- 4-5 times stronger than normal float glass
- Breaks into small pieces/dices minimising risk of injury
- Can resist thermal stress as edge strength is higher

Tempering is done at Jaquar's own fully automatic state-of-the-art tempering unit:

- Tempering is for shower enclosure glasses only
- 90% of an enclosure is glass, so glass must conform to the highest safety standards since it is used in the bathroom

Quality checks:

- Fragmentation test: to check breakage pattern of glass
- Zebra test: to ensure there's no waviness
- Ball drop test (impact resistance): to check strength at the point of impact
- Visual defects: to check for bubbles, scratches, chipping at edges and other visible defects
- Free fall test: to check the overall strength of the glass, by throwing the glass freely on a plain surface

Standards:

- These standards ensure that the glass passes stringent quality parameters
- Ensures consistency
- Enhances life of the product

Conforms to both European and Indian standards:

i. Reference: India

- IS 2553 (part 1 : 1990)
- IS 14900 : 2000
- IS 2835 : 1987

ii. Reference: Europe

- En 14450 : 2000
- Adheres to European toughening norms

2| Hardware:

Frameless Range:

Hinges

Minimalist and of sleek design to make the entire enclosure aesthetically appealing

- Made of brass with nickel and chrome plating
- Automatic closing upto 30º
- Tested for 5 lakh cycles
- Rust proof screws
- Screw caps
- Protective film on the hardware to prevent scratches etc
- Designed to carry loads of upto 25 kg (per hinge)
- Gaskets made of food-grade plastic

Glass Connectors:

- Minimalist and sleek design to match the hinges
- Made of brass with nickel and chrome plating

Stabilisers:

- SS 304 grade
- Mirror finish to match chrome finish of the hinges and connectors
- 19 mm dia

Towel Bars:

- Longest towel rod (405 mm x 205 mm) to hang 2 towels
- Brass with nickel and chrome finish
- 9 mm dia
- No visible screws

Plastic Parts :

Semi-Framed and Frameless range:

i. Made of food grade plastic

ii. Finish:

- Sleek to match with hardware
- Transparent look to complement glass
- Enhances aesthetic appeal of enclosure

iii. Concealed magnet ensuring longer life

iv. 5-year warranty for complete peace of mind

v. Replacement even if it turns yellowish

vi. Profile instead of wall connectors:

- Aluminium profiles with powder coating
- Aluminium is first cut to size, then chemically treated and powder coated so that there is no chance of rusting
- Adjustment of 15 mm to cover undulations in the wall

vii Hinges:

- Rise and fall mechanism: door rises 6-8 mm above the floor while opening thus preventing any chance of breakage

Sliding Range:

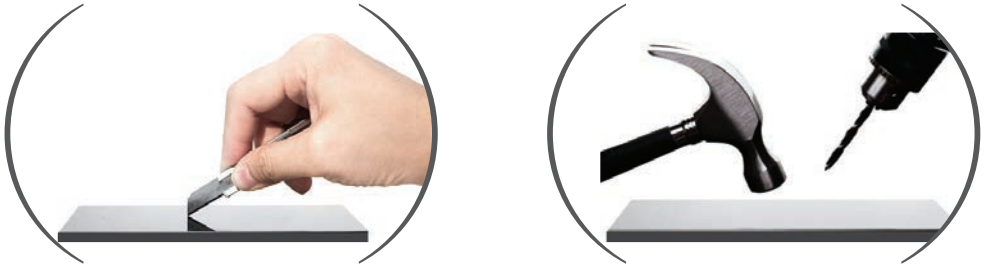
- Top hung channel - gives obstruction-free walk way
- Wall profiles: sleek with 15 mm adjustment
- Rollers: ball bearing encapsulated in brass
- 5-year warranty on rollers

Tempered Glass with Ezee Kleen Feature

As glass is the major component in any shower enclosure, utmost caution should be taken while choosing the type of glass for shower enclosures. Raw float glass or heat-treated glass should never be used in shower enclosures because of the risks involved. Jaquar, keeping safety as priority, uses the highest quality of toughened or tempered glass - manufactured in Jaquar's own fully automated state-of-the-art tempering unit, meeting Indian as well as European safety norms. These standards ensure that the glass passes through stringent quality checks ensuring consistency and safety, thus enhancing the life of the shower enclosures too.

All Jaquar Shower Enclosures have special hydrophobic treatment on the inner surface of the glass. This treatment repels water, oil and soap, and helps to keep the glass clean with minimum effort. It also prevents bacterial growth, and stops limescale buildup and water spots on the glass.

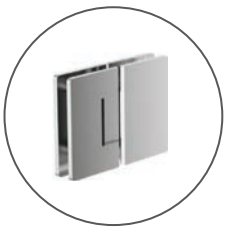
Jaquar offers a variety of models with different glass options like clear glass, extra clear glass, frosted glass and textured glass, as well as a choice of patterns on the glass. These patterns add elegance to your bathroom décor and provide uniqueness to your enclosures.



Five level testing of toughness

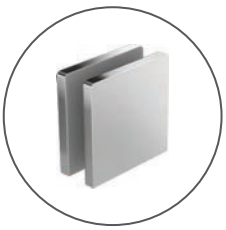
Key Components:

Wall to Glass Hinge



Glass to Glass Hinge

Wall to Glass Connector



Floor Clamp

Stablizer Rod

Towel Rod/Door Handle

Knob

Plastic Parts

Roller

Note: Coloured hardware is used in all frameless shower enclosure

Stark Series

Stark Series: Flawless design and consistency, Design is expressed through shapes, forms, and colors, or on the other way shapes are the basic elements to express our design thinking. Various forms like circles, ovals or triangles, squares are also a unique design inspiration for the contemporary interior designers. Keeping that in mind, Jaquar introduces Stark Series, a square shower enclosures range to enhance the look of the bath space to inspire the thoughts on square.

Ready to fit

Frameless

Frameless enclosures add to the aesthetic appeal of the bathroom as more glass and less hardware gives a spacious look to the bathroom. These maintain the functionality and effectiveness with the usage of minimum fittings and fixtures. Available in both 8mm and 10 mm thick glass with standard and customised options.

Enclosures For Steam Cubicles

Jaquar introduces enclosures for the steam cubicle as per the need of the bathroom dimensions. Jaquar enclosures provide perfect solution to the need of a roof on top of an enclosure or adequate fixtures to restrict the steam inside of the cubicle, thus satisfying the dream of a steam cabinet even in your existing bathroom.

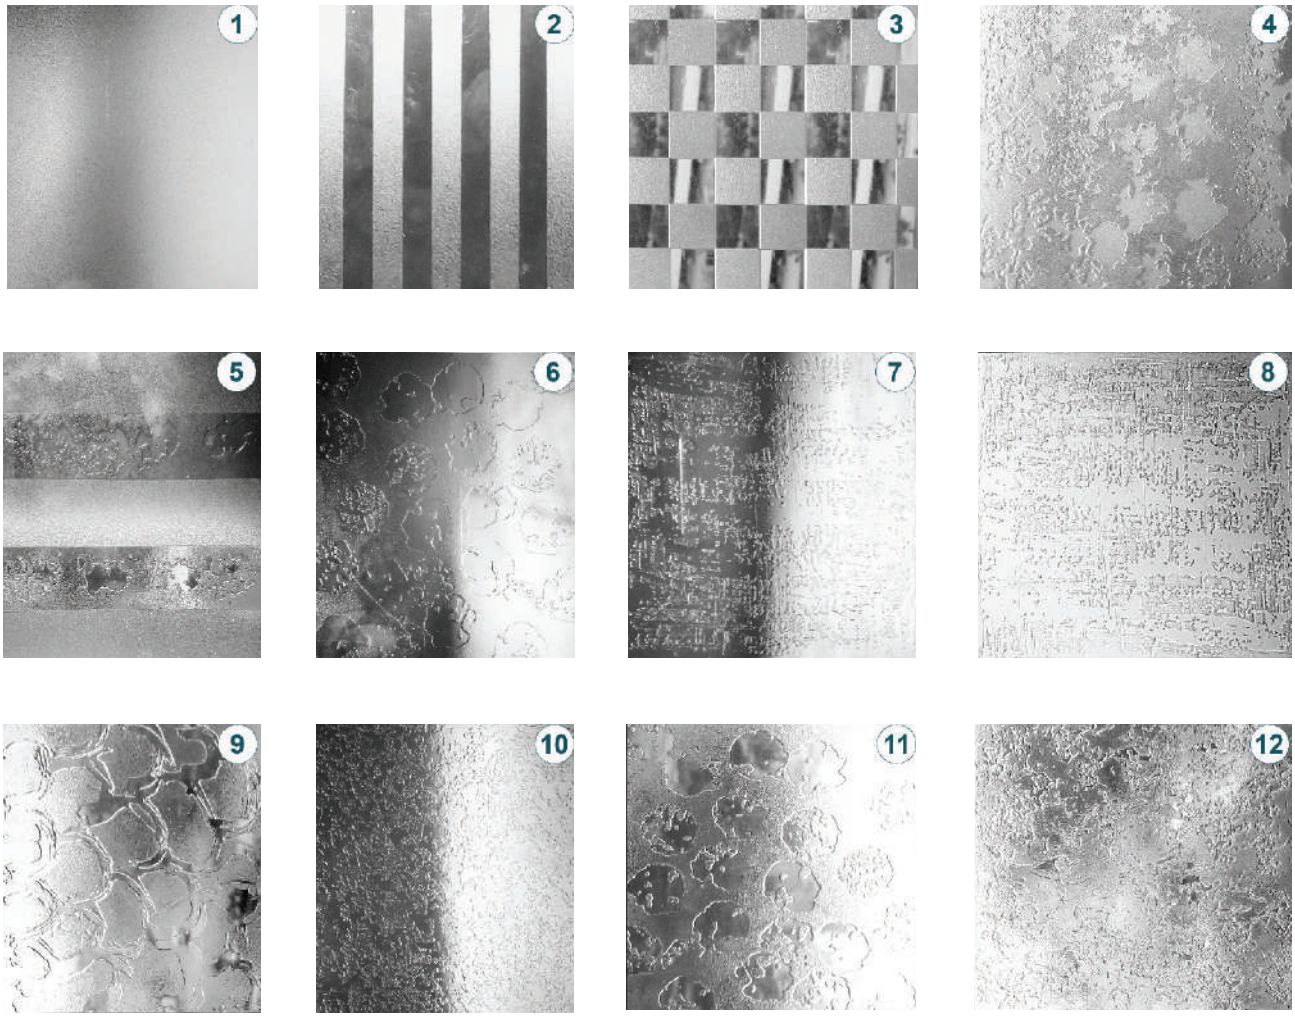
Textured glass has a repeating shallow pattern that is available diffrent styles. It enhances the overall look of the bathroom. Several styles to choose from :



Features:

- Permanent. Images won't fade, peel, scratch or crack
- Control over opacity

Textured Glass:

Unique and handcrafted designs on the glass. As the patterns are not geometric in shape, each and every piece is unique and different. The textured designs on the glass are patterns that maintain the transparency of the glass.

Frosted Glass:

The sand blasted frosted glass makes the enclosure opaque which provides more privacy. The geometric frosted shapes offer more design options for the shower enclosure.

Enjoy Cascading Moods of Colour

Jaquar Shower Enclosures with a range of myriad hues, add that touch of colour to your bath-time. To create a dreamy sequence, the colours match the colour of the faucets and other fixtures in your bath space, creating a mesmerising and symmetrical ambience.

Artificial Ledges

Jaquar introduces artificial marble ledges in five different colours. Designed to enable leak-proof, perfect and hassle-free installation of the enclosures, these artificial marble ledges resolve the issue of slope of the bathroom and keeps the water inside the wet area of the bathroom, providing optimum effectiveness to the shower enclosures.

Jaquar BATH + LIGHT

ÉSSCO

Conceived back in 1960, the Jaquar Group has been built on the platform of the highest quality standards, aesthetics and the intent of providing world-class products. Today, the Jaquar Group caters to luxury, premium and value bathroom segments with Artize, Jaquar & Essco brands, respectively, for residential and commercial sectors across the globe. The group's lighting division, Jaquar Lighting, too has been setting new parameters of excellence while witnessing unprecedented success.

A Story of Trust. Since 1960

A rapidly growing multi-diversified 'Complete Bathroom and Lighting Solutions' company with a turnover of 0.50 billion (USD) in 2019-20, the Jaquar Group is one of the fastest growing bathroom companies in the world, with a presence in over 60+ countries, across Europe, Middle East, Asia- Pacific and Africa.

- A dedicated workforce of more than 10,700 employees across the globe
- 7 state-of-the-art manufacturing units in India, and 1 in South Korea
- Produce more than 125,000 faucets every day
- Deliver over 2.4 million bathrooms every year and produces over 28 million bath fittings annually

Jaquar | BATH + LIGHT

Jaquar's vision is to be the brand that inspires people worldwide to rediscover the joys of water and light.

A global Superbrand, its Complete Bathroom Solutions include a wide range of products that have beautifully designed aesthetics to make the bathroom a relaxing, refreshing, joyful space, as well as the highest build quality to ensure that they can withstand tough usage conditions, backed by a 10-year warranty and dependable customer care.

In lighting too, the brand offers Complete LED Lighting Solutions - for residential, commercial and outdoor use. Designed to be compatible with, and complement, every interior and exterior design aesthetic or décor, every lighting product reflects Jaquar's impeccable record of superlative quality and painstaking attention to detail.

Artize

Inspired by the magical touch of art, the luxury lifestyle/wellness brand, Artize, aims to create inspiring bathrooms. Setting new benchmarks in redefining the landscape of luxury bathrooms, Artize is a classic blend of unique designs, minimalistic shapes, and meticulous finishes. The brand redefines a typical bathroom space with our discerning products that reflect exquisite craftsmanship and timelessness.

ESSCO

The oldest brand from India's most trusted corporate in the bathware segment, Essco has been in existence for 5 decades. A value brand that added a whole new chapter in the country's bath fittings industry by ushering in the era of the organised bath market, Essco has been supporting affordable and sustainable housing in India. Its range of quality products are not only priced reasonably, but also offer a 10-year warranty and excellent customer service.

Essco has been standing tall in the Indian bath fittings industry since 1960 by delivering great performance at a low cost. And enabling Indian consumers to live a better quality of life through good sanitation and affordable housing.

Jaquar World

A Complete Bathroom Solutions destination where customers could walk in, conceptualise their own bathroom concept; get professional inputs on design and technical issues; get a first-hand experience of what they are about to make; find all the relevant products and services; and get unmatched customer support that ensures their dream space turns real.

Jaquar World offers everything one could dream of in the bathroom space through two of its most respected global brands - the premium brand Jaquar and the ultra-luxurious Artize.

Unmatched Customer Service

Global Bath Brands

Wide Range of Products and Concepts

Jaquar
WORLD

A
Artize

It’s the small things that make a Big Difference.

Whether we're making a faucet or a light bulb, or even building our global headquarters, Jaquar never loses sight of the minute details. And we make those a little better. Every time. Since 1960, that's how we've been exceeding customer expectations, creating value, and growing our business. Responsibly. In stature, in sales, in service support and sustainability - in India, and across the world.

Green Products

From Dual-Flush systems and Air Showers, to Pressmatic and Sensor Taps, Sensor Urinals, and Flow Restrictor products, Jaquar has a whole range of GRIHA-certified solutions that offer significantly lower water consumption without compromising performance.

Innovative Thinking

Built on a platform of the highest quality standards and aesthetics, Jaquar invests in continuous R&D to create products that can withstand tough, Indian conditions. And works with leading international designers to create award-winning, world-class products that are better, safer and smarter.

Energy Saving

Jaquar Lighting's state-of-the-art energy-saving LED solutions for Home, Commercial, and Outdoor segments are made with high quality Electronic Control Drivers and components that are extensively tested in-house to ensure durability and longer product life, even in tough Indian conditions.

Environmentally Responsible

Jaquar's zero-waste manufacturing plants recycle 150,000 litres of water every day and 11,680 tonnes of brass every year, and generate 5.4 MW of solar energy. Our global headquarters is LEED Platinum Certified by USGBC.

Community Development & Value Creation

To support weaker sections of society through initiatives that lead to social and financial inclusion, Jaquar Foundation has over 30 ongoing projects covering the fields of education, health, sanitation, potable water and skill development. Taking a holistic approach to growth, Jaquar aims to offer value not only in terms of the consumer offering, but also to the distribution and sales network, as well as our own teams by developing their skills and capabilities

Trusted Customer Care

India's most trusted bath brand*, Jaquar has always focused on offering an unbeatable ownership experience. That's why we have an unmatched nationwide service network (accessed with a single, toll-free number), trained technicians on call, a Preventive Maintenance Service, and a 10-year warranty on our products

*Jaquar Syndicated Research Neilsen'13, Percept'16

Jaquar's Complete Bathroom **Solutions**

In line with our vision to be a global leader in Complete Bathroom Solutions for inspired living, Jaquar offers a unique and comprehensive bathroom portfolio of products for every kind of bath space. From Faucets, Showers and Sanitaryware to wellness products like Whirlpools, Steam Cabins and Spas, as well as Shower Enclosures, Water Heaters and Accessories.

Choices That Work Together, Beautifully

Jaquar products are designed to be experiential, and are driven by deep customer usage insights. Designs of various products like faucets and sanitaryware within a range are also coordinated, to ensure that they work together beautifully.

Available in a wide range of high-quality, aesthetic colour finishes for many design ranges, they allow you to create a bathroom with a unique sense of style.

Quality That Excels Worldwide

Jaquar products aim to surpass global parameters of ergonomics, finish, material, safety, environmental impact and functionality. They are developed in our modern, well-equipped R&D centre where trained engineers put them through rigorous testing to ensure reliability in the toughest of conditions.

- State-of-the-art R&D labs equipped with advanced equipment and technological processes to analyse each functional aspect of every product, ensuring absolute quality.
- The highest quality standard of our products in every category have made us ‘India’s most trusted bathroom brand’ (Jaquar Syndicated Research Neilsen’13, Percept’16)

Eco-Friendly Products from a Responsible Company

As a major global manufacturer of bathroom products, we at Jaquar are well aware of our responsibilities. Conservation of precious water as a natural resource has long been the primary goal of our sustainability efforts to help preserve the living planet for our future generations. Go Green is a philosophy embraced by Jaquar as a tenet of its design and production system to save water.

FLOW RESTRICTORS

This is a revolutionary technology that lets your faucets and showers save up to 80% of water without compromising on the flow. Jaquar Flow Restrictors adjust the flow in both low and high pressure conditions and offer the same voluminous flow every time.

Pressmatic Taps
1.5 Ltrs. per operation

PRESSMATIC FAUCETS

Faucets with technology that allows only a fixed quantity (1.5 Ltrs.) of water to flow with every press of its knob.This mechanism not only prevents water wastage during each use, but also provides ease of operation. Jaquar Pressmatic Faucets are recommended for bathrooms of high traffic locations like restaurants, clubs, hotels, colleges, hospitals, airports, etc.

Flow rate options available: 6.0, 8.0 & 12 LPM

70% Water
+ 30% Air =
100% Rejuvenation

Flow Restrictor

AIR SHOWERS

Jaquar's Air Showers have a built-in air mixer that mixes air and water in a manner that makes shower drops lighter but voluminous. This revolutionary technology helps Jaquar Air Showers save up to 30% of water without compromising on the showering experience. Choose from a wide range of Hand and Overhead Jaquar Air Showers with single and multi-flow options.

Three stages of washing hands with Sensor Faucets

Wetting your hands | Making lather with soap | Rinsing your hands

Water consumption chart

	Time consumption in seconds			Water Consumption (A+B+C Stage)	Saving
	A	B	C		
Single Lever Basin Mixer	5	12	7	4.31 L	BASE*
Sensor Faucet	5	Not in use	7	1.8 L	59%
Pressmatic Faucet	8	Not in use	8	3.01 L	31%

*Base calculation is taken on Florentine basin mixer at 1 bar pressure

SENSOR FAUCETS

Faucets with technology that allows water to flow only when you need it and shuts it as soon as you move your hands away, resulting in zero wastage of water. There's no better way to save water than turning it off when you don't need it. For example, while washing hands with soap, you can save water when lathering. Use Jaquar Sensor Faucets in high traffic areas like restaurants, clubs, hotels, colleges, hospitals, airports, etc.

DUAL FLUSH

Flushes that use more water than needed are the biggest water wastage culprits in every home. Jaquar's Dual Flushing Systems enable you to use either a combination of 3/6 ltrs. of water or 2/4 ltrs. of water, depending on your water closet. Jaquar's beta valve is designed to save 50-60% of water every day.

Award-Winning Designers for Coordinated Designs.

Jaquar products are conceived by internationally-acclaimed designers and made to lead the evolution of bathrooms from functional rooms to inspiring spaces.

Jaquar's approach to design, drawing from classical, modern, contemporary and fusion styles, has resulted in many recognitions, including the prestigious Red Dot and IF Design Awards, among others - which illustrate the global appeal of our portfolio.

CLAUDIA DANELON &
FEDERICO MERONI

“Tailwater take inspiration from the natural world, embodied in a beautifully engineered piece of industrial design."

LISA BOSI

“Alive is the meeting point of two different geometries. A rectangular bathtub with smooth edges that make it softer.”

MICHAEL FOLEY

“Tiaara is a perfect balance of handcrafted and machine made processes. Its segmented assemblies allow for ease of manufacture and access to refined hand polishing of every surface.”

PARICHAY MEHRA

“Linea is the epitome of minimalism - a biomorphic design that delivers a Zen-like waterfall flow into your palms; a perfectly serene stream from the half-cut-bamboo style faucet.”

MATTEO THUN

The collection is characterized by simplified shapes, warm colours and excellent material provides a wide range of combinations and is a result of an intense dialogue between Jaquar and the designers, blending a minimal design with direct functionality.

Globally Approved with Certifications and Licences

Jaquar uses the most modern and advanced global technological processes. Its in-house R&D and testing laboratories comprehensively analyse each functional aspect of every product to ensure absolute quality. The result? Products that conform to not only the highest global standards, but are also capable of with standing the rigours of tough usage conditions.
